

AFFAIRS IN BALTIMORE.

The Reign of Dulness—The Bremen Steam Line—Another Line of German Ocean Steamers Talked of.

From Our Own Correspondent. BALTIMORE, Aug. 1.—Our city has been for some weeks past, and now is, unusually dull and quiet.

Our new line of steamers to Bremen has afforded favorable opportunities for persons visiting the other side, and very many taking advantage thereof, are now in Europe.

It is thought, indeed, two more steamers may yet be added, and enough be found for them to do. Being connected as they are with that powerful work, the Baltimore and Ohio Railroad, their success is the greater and triumph more complete.

Your city of Philadelphia, in connection with its great Pennsylvania railway system, should lose no time in emulating our example regarding ocean navigation, and establish a German line similar to the one we have.

As what is termed our Northern Central Railway is under the absolute control of your Pennsylvania Road, giving full, free, and easy connection, competing with the Baltimore and Ohio for Western trade, it is quite certain President Garrett will afford no facilities beyond what he can avoid to any company opposing him.

There has been and now is some talk of securing certain privileges whereby another line of German steamers, to sail from some prominent port in Germany for Baltimore, is to be established.

I assert again Philadelphia, or her business men, stand greatly in their own light if they permit this to be done. Let them, by all means, regardless of cost, move at once in the matter, before it is too late, and secure their own line of steamers, connected with their own Pennsylvania Railroad; otherwise they must unquestionably suffer in their commerce and business.

The railroad fever is decidedly alive in our region. Works of this kind, small and great, are being projected, and some of them now under construction, all over the State.

The Western Maryland Railroad to Hagerstown and Williamsport has been retarded only for the time being by an injunction preventing Baltimore City from giving it the million of dollars authorized by a recent ordinance.

Our city, excepting some diarrhoea, has been remarkably healthy, barring an unusual mortality among children from summer complaint.

MUSICAL AND DRAMATIC.

BRYANT'S MINSTRELS will commence their second week at the Arch Street Theatre this evening. The burlesque of Lucretia Borgia, the Black Dogress, will be produced, together with several other novelties.

CITY ITEMS.

SUMMER CLOTHING OF ALL KINDS.—A large assortment of fashionable, well-finished, durable, and comfortable clothing, suitable for the season, is now on hand at the Philadelphia Clothing Store, No. 112 Arch Street.

SINGER'S SEWING MACHINES. On easiest possible terms, by O. F. DAVIS, No. 81 Chesnut Street.

WINE.—Mr. W. W. Casidy, No. 12 South Second Street, has the largest and most attractive assortment of fine wine and liquors in the city.

NEVER ALLOW DIARRHOEA, DYSENTERY, or any Bowel Affection to have its own way, or the most serious consequences may result. By neglecting such complaints the system is often so rapidly reduced as to reach a stage beyond the help of medicines before the patient can realize the necessity of looking about him for a remedy.

JEWELRY.—Mr. William W. Casidy, No. 12 South Second Street, has the largest and most attractive assortment of fine jewelry and silverware in the city.

A CARD.—Charles Stokes will sell the balance of his summer stock of cloths at reduced prices, in order to make room for his very choice stock of fall clothing now being manufactured.

THE CONDITIONS OF HEALTH.—It is idle to expect health if the precautions necessary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as are requisite in the management of the most complicated combination of levers, wheels, and pinions.

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in summer, with its millions of pores wide open, is a very different sort of tegument from the compact fibrous covering which it becomes under the action of the winter's cold.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart stimulant vigor to the system, and enable it to endure the ordeal of the heated term without giving way under the pressure, is HOOVER'S KIDNEY PILLS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the ailments they are employed to cure, that it may be administered without fear to the feeblest female or the most delicate child.
